## Summary

I am an analytical web developer with 8 years of team leadership experience. I pride myself on being highly motivated and a proficient problem solver with a keen eye for detail. I have successfully led multiple teams to yield better results in less time with attention to detail.

## Key Skills

- JavaScript
- Cascading Style Sheets (CSS)
- HTML
- Bootstrap
- git

## Experience

### Freelance Web Developer

2021- Present

- Created micro-sites for small businesses.
- Used JSON/AJAX
- Included APIs based on customers' specific needs.

### LUA Developer

2005- Present

- Wrote custom addons in LUA for World of Warcraft.
- Customized previous build add-ons to meet users' needs.
- Managed in-game data objects

### Pastry Chef

Pappalecco | October 2021- Present

- Manages large orders of items to multiple locations throughout the city.

### Chef

Zafferano Catering LLC | April 2021- October 2021

- Led diverse teams of up to 7 chefs to meet deadlines for large orders.
- Managed overall quality of all stations while troubleshooting problems at the moment.
- Helps update items to customers' requests and changing trends.

## Education

Front End Web Development General Assembly | January 2022- March 2022

Diploma Lawrence Free State HS, Lawrence, KS | 2005 - 2009

## Accomplishments

- Collaborated with other Chefs to achieve a James Beard award at Mercantile Dining & Provision in Denver, Colorado.
- Managed ordering, scheduling, and menu design at a startup restaurant.
- Graduated from GA's FEWD course ahead of my class and assisted the instructors with helping other students.
